Kathmandu, Nepal

A passionate and detail-oriented beginner software developer with a solid foundation in HTML, CSS, JavaScript, and React. Committed to creating responsive and user-friendly web applications, with a strong desire to learn and grow in the field. Seeking an opportunity in a dynamic organization to leverage technical skills and contribute to innovative projects that enhance user experiences and achieve business objectives. Eager to collaborate with others and tackle challenges that foster continuous improvement and development in the tech industry.

SKILLS

● Figma, HTML, CSS, JS, REACT, TAILWIND

PROJECTS

Spotify Clone Music Player Web App

[Github link](#)

Developed a music player web application inspired by Spotify, utilizing the Fetch API to locally track and play music. Implemented features such as playlist creation, and playback controls, enhancing user experience.

To-Do List Application

[Github link](#)

Created a functional to-do list app that allows users to add, edit, and delete tasks. Focused on user-friendly design and local storage for task management.

Password Generator

[Github link](#)

Designed a secure password generator tool that creates strong, random passwords based on user-defined criteria. Emphasized security best practices to ensure user data protection.

Weather web app

[Github link](#)

Created a functional to-do list app that allows users to add, edit, and delete tasks. Focused on user-friendly design and local storage for task management.

Website Clones

[Github link](#)

Completed various website clones, replicating popular sites to enhance front-end development skills. Utilized technologies such as HTML, CSS, and JavaScript to achieve responsive and visually appealing designs.
